The Court has conducted a review of the record in this case and Plaintiff's objection (11) thereto. Upon finding that plaintiff's objections fail to properly address and brief the objectionable issues raised within the Findings and Recommendation, the Court determines that the Findings and Recommendation (#16) of the United States Magistrate Judge entered July 14, 2009, should be affirmed. As such,

DATED: August 18, 2009
